

Rose Haven Heritage Garden 30th Anniversary

“Help Us Grow Our Garden”

Thank you for your past support and recognition of the role the Garden plays in our community. We live in challenging times and feel fortunate to offer our neighbors a serene place to regenerate their spirits. We see it every day as people come to connect with nature.

As part of our 3 year master plan to restore and renovate the Garden, we have recently completed a new reflecting pond including a water feature and restored the Hall of Fame rose garden.

We are excited to announce a significant new addition, the Boos Courtyard Labyrinth, which will include a 24' walking labyrinth encircled with 220 commemorative engraved Donor Bricks.

***This is an outstanding opportunity for members of our community to
join the “Help Us Grow Our Garden” campaign,
be recognized as a donor, and
become a permanent part of this enchanting Garden.***

Now you can partner with us to increase visibility of your business and promote the Garden. Rose Haven is used by the community for small meetings, photo shoots, family walks, picnics, and special events throughout the year, all while adhering to Covid-19 safety guidelines.

Thank you,

Rebecca Weersing

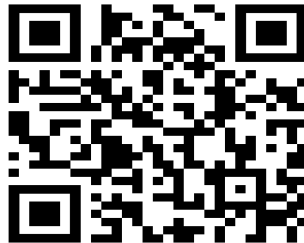

Chairperson of Rose Haven Heritage Garden
